

# LET BITS IMPROVE YOUR SECURITY AND THE PROTECTION OF YOUR DIGITAL ASSETS

Today's cyberthreats make protecting a financial institution increasingly difficult, especially when you "don't know what you don't know." At BITS, we can help your financial institution better protect its assets, customers, and reputation through a complete set of security services.

## ARE THESE CHALLENGES FOR YOUR INSTITUTION?

When it comes to security, we find that community financial institutions deal with a ton of challenges.

Creating and maintaining a security policy

Managing disparate security systems

It's costly to recruit, train, and retain security staff

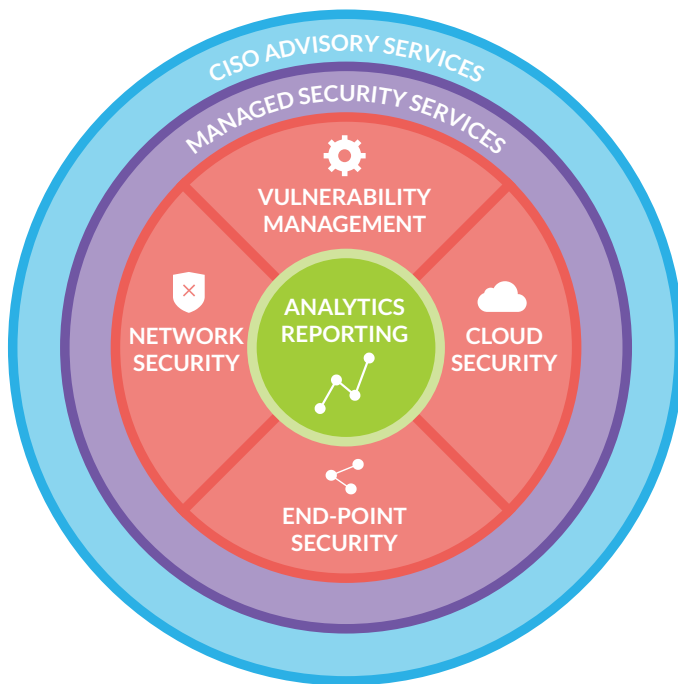

Continually upgrading security technology

Staying on top of changing cyberthreats

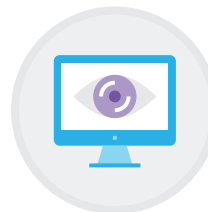

## BITS SECURITY SERVICES WERE BUILT TO HELP

We partner with Cisco and Secureworks to provide a suite of security services that will fill the technology or capability gaps in your security infrastructure. Through a single pane-of-glass, we can correlate network, cloud, and endpoint events to determine if malicious activity is present and take immediate action to remediate threats.

### MANAGED AND MONITORED FIREWALL

We provide administration, maintenance, and around-the-clock monitoring of your firewall infrastructure – generating immediate alerts and responses to any internal or external threat.

### MANAGED AND MONITORED INTRUSION DETECTION

We provide additional visibility throughout your network so no entry point goes unwatched. Certified security engineers will actively monitor all alerts and take action to remediate threats.

### INTEGRATED SECURITY SOLUTIONS

We can ensure your network is proactively protected from our data center to your devices with advanced endpoint protection, SIEM, and vulnerability management solutions from Secureworks.

BITS SECURITY SERVICES HELP YOU FILL THE TECHNOLOGY AND CAPABILITY GAPS IN YOUR SECURITY INFRASTRUCTURE

### CONTENT AND URL FILTERING

We block malicious sites and stop threats like malware, ransomware, and other attacks before they reach your network or endpoints through Cisco Umbrella, without added network latency.

### EVENT/INCIDENT MANAGEMENT AND REPORTING

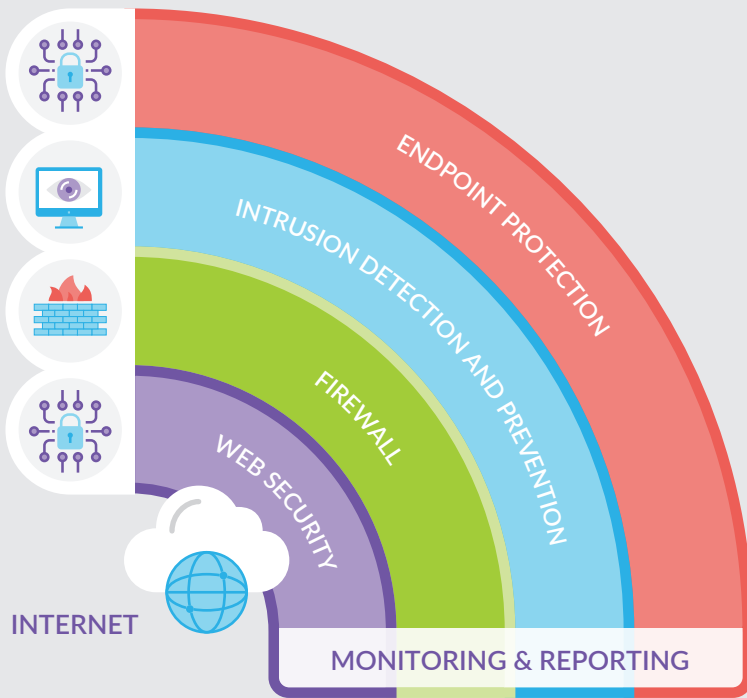

We provide a simple, web-based dashboard for you to view security events, read executive summaries, and easily create reports for audits or general reporting purposes.

### CISO ASSESSMENT AND ADVISORY SERVICES

We provide strategic security services for financial institutions who don't have the resources to hire a full-time CISO - including in-depth assessments, policy reviews, and audit preparations.

### BITS SECURITY SERVICES SUPPORT A DEFENSE IN DEPTH STRATEGY
